Dear Parent/Carer

Superzone Information for parents

We are very excited to let all of our pupils and parents know that Whitefriars School has been selected to be part of a new London initiative called 'Super zones'. This is a project which will focus on the 400 metres (a 10 minute walk) around schools and will create a healthier environment making our children safer, happier and healthier.

'Super zones' have been established to take action to protect children's health and encourage healthy behaviours and Whitefriars School will be working in partnership with Harrow Council to focus on many aspects such as air pollution, traffic congestion and healthy food and lifestyle choices.

publichealth@harrow.gov.uk

We are really interested to hear if you have any comments or suggestions for how we can improve the local area then please email:

Yours sincerely,

Lucy Caswell
Executive Headteacher
Heathland Whitefriars Federation
